- Alarm voice call to end-users
- Hik-Partner Pro / Hik-Connect
- SIA/CID protocol
- RF frequency
- IP module
- Wi-Fi module
- GPRS/3/4G module
- IPC and PIRCAM supported
- Dual SIM card design

AX PRO Hub

96 wireless inputs & outputs supported
6 wireless sounders supported
4 wireless repeaters supported
8 keypads & tag readers supported
48 keyfobs & tags supported
32 areas supported
5,000 event logs

Temperature Detector | Panic Button | Indoor Sounder | PIR Cam | PIR-Glass Break | Keypad | Reed Switch | Outdoor Sounder | IPC | Relay | Wireless Repeater

Keyfob | Hik-Connect
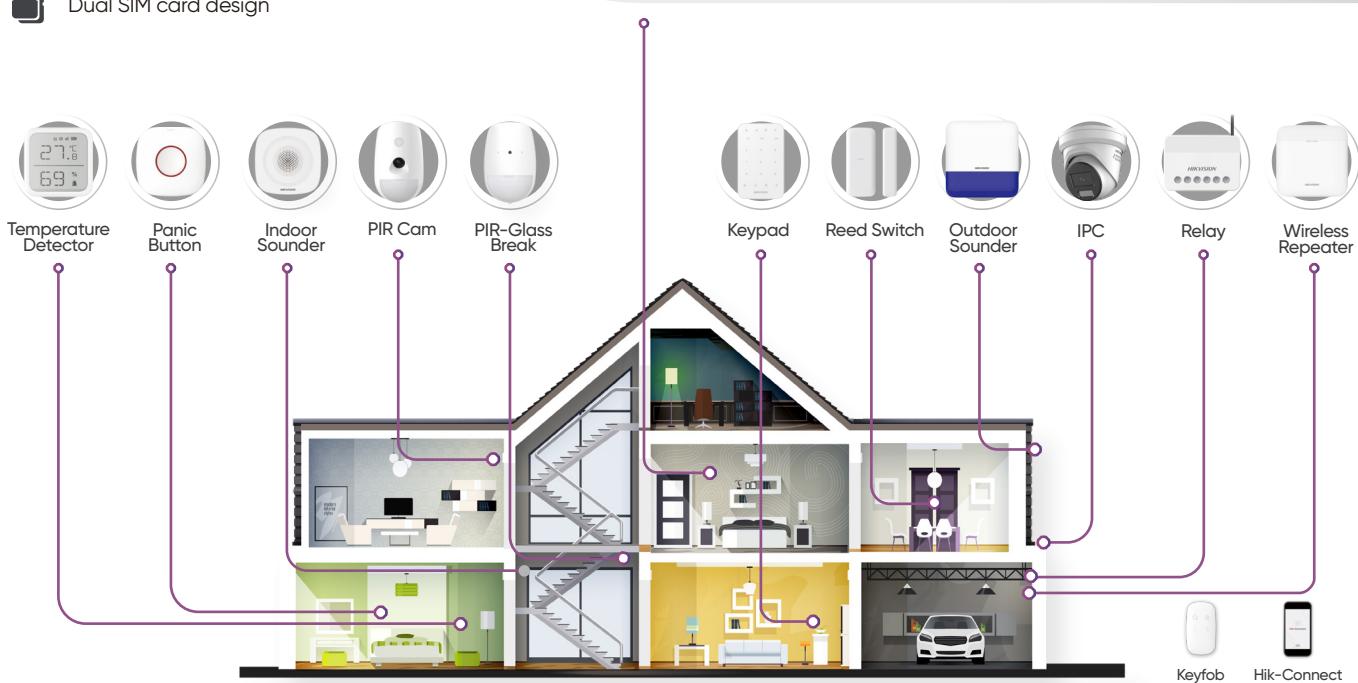

Visible Alarms

Powered by Hikvision's IVaaS technology, home or business owners can verify alarms with real-time video clips or GIFs when away, staying confident and informed.

This feature provides immediate visual confirmation, reducing false alarms and ensuring peace of mind.
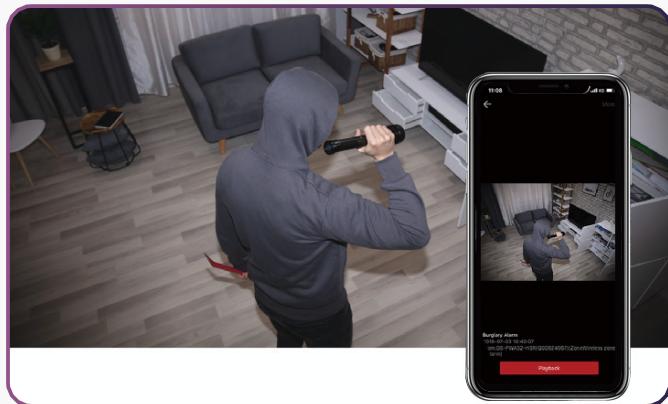

PC Free Setup

With PC-free setup, you can configure and manage your devices via Hik-Partner Pro without the need for a computer.

The setup process is simple and can be completed in just three steps, making it quick and easy to get your system up and running.

Hik-Partner Pro
Security business assistant at your fingertips
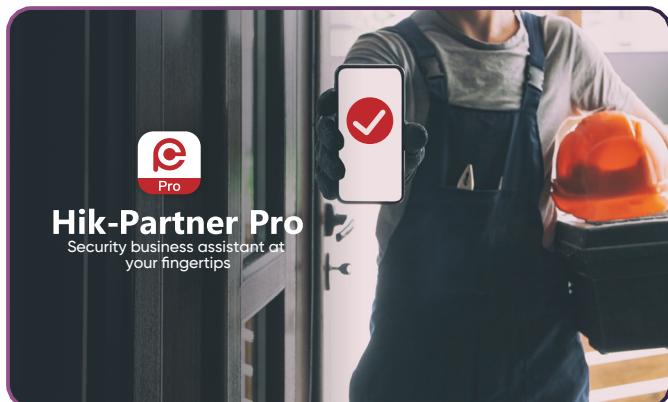

Hik-Connect EcoSystem

You can connect alarms with CCTV and intercom systems, creating an integrated ecosystem that enhances the security of your home or business.

With HikConnect, you can manage all your devices via one app from anywhere at any time, ensuring seamless and comprehensive control over your security system.
