Why Choose the AX PRO Wireless Alarm System

Instant & visualized verification

- **Stay informed** via HD images or video clips, powered by **IVaaS technology**

- **Get instant alerts** to threats with fast transmission

- **Avoid the headache of false alarms** as the system detects only actual intruders and other events, but not your pets

Comprehensive protection and more

- **Keep an eye on every corner of your place**, indoors and out, with a variety of detectors covering intrusions, broken glass, smoke, and fire, as well as water or gas leaks – and more

- **Get smart management** of your lights, air-conditioning, and other electric appliances, for a more intelligent and energy-efficient home

- **Manage all Hikvision systems on one platform**, including video security, access control, video intercom, and more

Full-scale security with convenient mobile apps

- With the **Hik-Connect** **app for end-users**, you can manage all your alarm and other devices simply from the smart phone

- The **Hik-Partner Pro** **app** helps installers supervise alarm systems & device status anytime from anywhere (with the end user's authorization)

- **Open and easy integration** with third-party monitoring software used by alarm receiving centres
