DEVELOPMENTS

Green - Green

Weather Protected (IP55) Press Rex G/G Exit Device

The Press Rex G/G-WP is the same as the standard Press Rex G/G except that it provides additional protection against dust and water ingress. The Press Rex G/G-WP is designed to withstand splashes and sprays, but is not designed for submersion or exposure to high-pressure water streams.

Features:

- ▼ Designed to achieve IP55 ingress protection rating
- ▼ A protective coating has been applied to the PCB and the unit is fitted with an EVA gasket to provide a weather protection seal
- ▼ Features a large, tactile button to give the user good feedback that the button has been pressed
- ▼ Durable silicone button with embedded "PRESS" text
- ▼ The button is backlit green and changes to a brighter green upon activation
- ▼ Inbuilt sounder to provide audible confirmation of operation
- ▼ Easy to clean and fade resistant
- ▼ Black and Green surrounds are also available

Specifications:

- ▼ Single gang profile fits a standard NZ and AU electrical flush box
- ▼ Power requirements: 12Vdc or 24Vdc
- ▼ Two sets of clean N/O, N/C outputs
- ▼ The contacts are rated at 2A @ 30Vdc
- ▼ Spare looping terminal
- ▼ IP55 rated
- ▼ RCM, CE and RoHS Certified

Product code:

- ▼ Press Rex G-G-WP
