HikCentral Mini Cube

From Box to Protection in Minutes

HIKVISION

What is HikCentral Mini Cube

HikCentral Mini Cube is an all-in-one workstation that integrates video security, access control, video intercom, ANPR, and more on a single platform. Pre-installed with licensed software, it's ready to protect your business from day one.

Built for small and medium-sized enterprises, HikCentral Mini Cube delivers enterprise-grade security without the enterprise price tag. What's more, it's small and elegant. Whether you're managing a retail store or a growing office, its design proves that powerful security doesn't have to dominate your workspace.
